Intro new Deputy to Commissioners; discuss locksmith training for maintenance director

Commissioner Johnston states she'd like to hold off until there is a full staff/response

- will probably hire a past interviewee; discussion regarding that interviewee ensues

Ellen reminds everyone to stick to the agenda items and states pressure is coming in from the community because things not on the agenda are being discussed

- the sheriff brings forth the idea of having maintenance certified in maintaining jail locks; a school in San Diego is offered for \$1500.00 and \$105.00 per night hotel; air for \$350.00

Commissioner Zylawy asks if it's anticipated a locksmith will be needed/Response- it'd be for any kind of maintenance for the locks

Commissioner Simons asks if there will be a certification at the end of the class /Response- yes

Ellen asks if the county uses someone other than the lock company technicians/repair people from the lock company could void the contract? /Sheriff's Response: "my understanding is that it's the company putting it (the class) on

Ellen- asks if we have a maintenance contract / Response- No

Ellen restates her concern that the contract might have small fine print stating it could be void if someone other than people from the contract/Response- discussion of thoughts, thinking a contract would probably say a certified technician is required/ Response: Ellen clarifies the earlier statement that this certification is from the lock company /Response- yes

The Sheriff states the investment is a little more than \$2000.00

Ellen- asks if the maintenance director leaves, could he train the new person, or would they have to go to the school? / Response- probably have to go to school to be certified

Commissioners ask that this request be placed on the Agenda for April 9, 2021.
